

Alternator Upgrade Kit

RAC061

£435.00
£522.00 inc VAT

Product Description:

Heavy Duty Alternator 80 Amp Output

Replaces standard old fashioned unit when upgrading to negative earth .

It has an integrated control-diode charging system. Very similar in appearance to the original alternator and is a serious upgrade to your battery charging system. Suitable for Aston Martin DB2/4, DB4, DB5, DB6 and DBS/6 models.
